PERSONAL STATEMENT

Self-motivated and detail-oriented Software Engineer with a passion for innovation and over 2 years of experience developing efficient, large-scale web-based systems. Skilled in PHP-Laravel, JavaScript, MySQL, PostgreSQL, MongoDB, and Oracle, with strong experience in REST API development, database design, and modular system architecture. Currently contributing to a SaaS-based HRM product (Yosuite), building payroll, inventory, and core HR modules. Experienced in AI-assisted development, using generative AI and LLM-based tools to accelerate delivery, while writing clean, maintainable, and efficient code — with the goal of growing into a reliable Software Engineer.

PROFESSIONAL EXPERIENCE

Software Engineer L-1 (ROXNOR)

Nov 2024 – Present | West Shewrapara, Dhaka

- Primary contributor to Yosuite's HRM product (a multitenant SaaS platform) and partial contributor to YoPM, its project-management module.
- Partially contributed to YoPM (SaaS project-management tool), developing task and project tracking features and working with PostgreSQL for data management.
- Developed and enhanced the Payroll module, including salary processing logic, deductions, and reporting.
- Contributed to the Inventory module, improving stock tracking and system accuracy.
- Designed and maintained RESTful APIs for internal and external integrations.
- Worked with MongoDB for optimized data handling in different modules.
- Integrated cloud-based file storage using AWS S3 and Cloudflare R2 (S3-compatible) drivers to manage file uploads across modules.
- Implemented asynchronous background processing using Laravel Queue, Jobs, and Redis, and monitored queue workers with Laravel Horizon to handle resource-intensive tasks efficiently.
- Automated recurring tasks using the Laravel Scheduler and containerized the application with Docker for consistent, reproducible environments across development and deployment.
- Collaborated with cross-functional teams to debug, optimize, and deploy scalable features.
- Improved system performance by refactoring legacy code, optimizing queries, and leveraging Redis caching.
- Developed API of this system for the Mobile app.

Technologies: PHP, Laravel, MySQL, PostgreSQL, MongoDB, Redis, Laravel Horizon, Docker, AWS S3, Cloudflare R2, REST APIs.

Software Engineer (Nextgen Innovation LTD.)

Oct 2022 – Nov 2024 | Banani, Dhaka

- Developing and maintaining modules for the Hospital ERP software (H360) using the PHP Laravel framework.
- Collaborating with cross-functional teams to identify and address bugs in existing modules, particularly in Clinical, IPD, OPD, Pharmacy, and Inventory modules.
- Worked with APIs to integrate various machines with the application and implemented third-party APIs in the patient registration process to categorize corporate patients.
- Developed and implemented back-office and clinical modules [Gate Pass, Conveyance Bill, IOU/Expense, Blood Bank, CSSD, etc].
- Developed and implemented HRM modules to streamline internal processes, including Attendance with various reports, Leave with various reports, Promotion, Increment, and an employee onboarding to termination or resignation system.

Technologies: PHP, Laravel, MySQL, Oracle, JavaScript, jQuery, Ajax, REST APIs, Git.

TECHNOLOGIES AND COMPETENCIES

- Languages:** PHP, JavaScript, Go (Beginner).
- Frontend:** HTML, CSS, Bootstrap, jQuery, Ajax.
- Frameworks:** Laravel, CodeIgniter (Working knowledge).
- Databases:** MySQL, PostgreSQL, MongoDB, Oracle, Redis.
- Cloud & Storage:** AWS S3, Cloudflare R2.
- DevOps & Tools:** Docker, Putty.
- Queue & Scheduling:** Laravel Queue, Jobs, Horizon, Scheduler.
- Version Control:** GitHub, GitLab.
- Generative AI & Tools:** Claude, Ollama (local LLMs), GitHub Copilot.
- Project Management:** Trello, Jira, Taiga.

EDUCATION / PROFESSIONAL TRAININGS

Diploma in Web Application Development with PHP and Frameworks

Dec 2020 – Jul 2022

IT Scholarship Programme of Islamic Development Bank (IDB)

IDB Bhaban, E/8-A, Rokeya Sharani, Sher-e-Bangla Nagar, Dhaka-1207, Bangladesh

Masters of Business Administration (MBA)

2021 – 2022

Comilla Victoria Government College

Passing Year: 2022 | Concentration / Major: Management

PROJECTS

Yosuite — HRM SaaS Platform (built at ROXNOR)

A multitenant, production SaaS HR platform serving real businesses — covering payroll, attendance, leave, inventory, and core HR modules, with REST APIs and cloud-based file storage. Primary contributor to the HRM product.

Live product: <https://app.yosuite.net/hrm/signup>

YoPM — Project Management SaaS (built at ROXNOR)

A SaaS project-management tool within the Yosuite platform for team task and project tracking. Partial contributor.

Live product: <https://app.yosuite.net/yopm/auth/register>

Customer Relationship Management Software (CRM) (personal learning)

CRM software using Laravel. Customer Relationship Management (CRM) is a technology/software for managing all your company's relationships and interactions with customers and potential customers. A CRM system is a tool that helps with contact management, sales management, selling services or products, agent productivity, and more.

For details go to: <https://github.com/imam-xs/Manpower-Agency-Management-Software>

Manpower Agency Management Software (personal learning)

The project was developed using PHP, MySQL, and Javascript.

For details go to: <https://github.com/imamhosen737/Manpower-Agency-Management-Software>

LANGUAGES

Mother tongue – Bengali. Fluent in Bengali and full working knowledge in English.
